SUMMARY

Performance-driven Software Developer and 1st Place Winner at Indux 5.0 National Hackathon. Experienced in Flutter, MERN stack, and AI-integrated applications with hands-on internship experience. Passionate about building scalable software solutions and solving real-world problems through technology.

TECHNICAL SKILLS

Languages: Python, JavaScript, C.

Frameworks & Libraries: Flutter, React.js, Laravel.

Web Technologies: HTML, CSS, Bootstrap.

Tools: Git, GitHub, Figma, Adobe Illustrator, Canva

Backend & Cloud: Firebase, Supabase

EDUCATION

R. N. G. PATEL INSTITUTE OF TECHNOLOGY (RNGPIT) - GTU

Surat, Gujarat

Bachelor of Vocation in Software Development

Aug 2023 -Expected Jun 2026

CGPA: 9.24/10.0

TECHNICAL TRAINING INSTITUTE, MOTI DAMAN

DAMAN

12th Computer Science

Jun 2022 – May 2023

Percentile: 88.73

EXPERIENCE

Advanced Web Technology (Laravel)

Unistar Softech Private Ltd.

Dec 2024 – Jan 2025

- Developed dynamic, Laravel-based web applications focusing on MVC architecture, routing, and controllers.
- Integrated database solutions and built robust backend web modules under industry guidance.

User Experience Designer (OJT)

Pixeta App Lab

Jul 2024 – Aug 2024

- Designed user interfaces, interactive wireframes, and visual assets using Figma and Adobe Illustrator.
- Applied advanced design principles and layout structuring following a user-centered design approach.

Flutter Developer (OJT)

Ultron Technologies

Aug 2025 – Sep 2025

- Built cross-platform Flutter apps with complex UI, efficient widget layouts, and smooth navigation.
- Used real-time development workflows and end-to-end testing to ensure performance and reliability.

MERN Stack Developer (OJT)

EFSouls Pvt. Ltd.

Dec 2025 – Jan 2026

- Completed Semester-6 Industrial Training in full-stack web development, developing MERN-based web applications.
- Used modern AI tools to boost productivity, simplify debugging, and improve code quality.

PROJECTS

NISAP — AI-INTEGRATED EDUCATION PLATFORM (React, Python, AI, OCR)

- Built OCR-based school data extraction and AI-powered learning support platform aligned with the National Education Policy.
- Won 1st Place at Indux 5.0 National Hackathon, Vikrant University, Gwalior (2025).

HOSTEL MANAGEMENT APP – Institutional Project (FLUTTER + FIREBASE) (TEAM)

- Developed a role-based Hostel Management App featuring QR Gate Pass, Leave & Complaint System with real-time notifications, collaborating in a team.
- Integrated Firebase for authentication, real-time database management, and push notifications ensuring seamless operations.

FITNESS TRACKING APPLICATION (FLUTTER)

- Designed and developed a comprehensive mobile fitness application focusing on custom UI components.
- Implemented robust tracking features and smooth navigation to ensure a high-quality user experience.
